

Dale Dellutri has had a life-long fascination with science and technology. He's worked with computer hardware and software since the late 1960's, and has managed technical employees and projects in various fields including programming, data center construction, legal, tax, and futures and equity trading. He has written programs in many computer languages. He is now retired.

He has an MBA and a MS in Information Science from the University of Chicago, and a BS in Engineering Science from the Illinois Institute of Technology.

He is an amateur astronomer, specializing in computational astronomy, manages the Skokie Valley Astronomers web site:

<https://www.skokievalleyastronomers.org>

and gives astronomy-themed presentations a few times each year to the club and at a local Astronomy Day meeting at Harper Junior College in Palatine, IL. His presentations have been both in-person and virtual (via Zoom).

He maintains a personal web site:
